# DENTAL CATALOG

The mix of traditional skills and modern day knowledge and technology of our experts enable us to manufacture dental instruments that compete the quality of any standard. GTMED offers dedicated services to customers emphasizing on quality and cost-effectiveness in order to deliver products at budget and in time. Our commitment to quality is fulfilled based on continuous monitoring at every stage of the manufacturing process.

Our philosophy is to share our knowledge and experience with our customers and give them all the professional assistance they might need.

**We at GT MED believe a highly quality at affordable prices.** All instruments bear the CE marking in conformity with the relative European directive.

**GT MED guarantees a consistent quality level of its products.**

## WARRANTY

All GT MED instruments provide a warranty against manufacturing defects of material and workmanship. GT MED will repair or replace, free of charge, any instruments that does not meet its functional requirements, joint failure, and corrosion under normal use.

Instruments that show wear from normal use are not considered to be defective and will not be covered by the warranty.

Sharpening and repairing minor tip damage are considered routine maintenance, and are not covered by warranty.

Modifying or instrument or failure to provide proper instrument care, including proper cleaning and maintenance, may void this warranty.

The diagram illustrates the application of various extracting forceps on the upper and lower dental arches. The upper arch is labeled 'Up' and the lower arch 'Down'. The right and left sides are also indicated. Numbered points (1-48) are marked on the teeth, with corresponding boxes listing the forceps numbers used for extraction. For example, points 1-28 are associated with forceps numbers like 29,30,108,113 and 1,107. Points 29-48 are associated with numbers like 7,18,44N,51 and 22,23,24,73,79.

Four types of extracting forceps are shown below the diagrams:

- English Pattern:** Shown with a circular inset of its beak tip. The full forceps has a standard beak and a textured grip on the handle.
- English Pattern, Anatomic Handle:** Shown with a circular inset of its beak tip. The full forceps has a standard beak and a handle with a curved, anatomic shape.
- American Pattern:** Shown with a circular inset of its beak tip. The full forceps has a beak with a hook-like tip and a textured grip on the handle.
- Deep Grip Forceps:** Shown with a circular inset of its beak tip. The full forceps has a beak with a hook-like tip and a handle with several gold-colored circular grips.

## Our Scalers

Compare our scalers and curettes with the best in the industry and you will immediately recognize we are equal in every way but one... price.

Note the deep precision knurling for better tactile feel. The same high-grade stainless steel tips, the same light weight (under 18 grams) for less hand fatigue, the same professional craftsmanship, and surpassing the highest industry standards. of course, any manufacturer can make these claims, but we guarantee and certify ours.

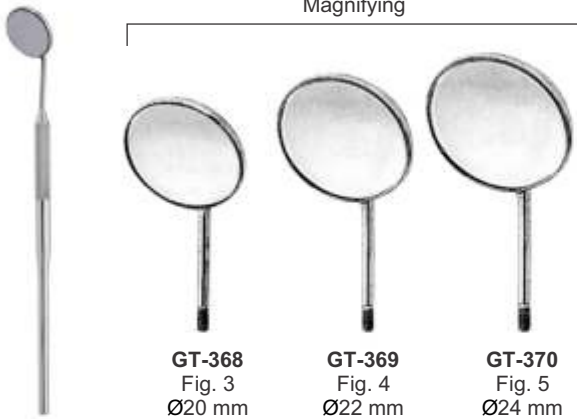

- High-polish mirror finish tips.
- Manufactured within the guidelines of the FDA quality assurance system for good manufacturing practices.
- Highest grade German stainless steel, razor sharp, durable tips. Rockwell hardened to 60 RHc.
- 27 of the most popular designs from graceys to McCalls to cumbias, and many european patterns.
- All instruments are guaranteed against defects in material and workmanship.

- All instruments bear the ce mark, emblematic of the european community's highest standards.
- Customer satisfaction guarantee, too!
- Less than 20 grams ... Lightweight for less hand fatigue.
- Manufactured to the most exacting standards so the 50th instrument you buy is exactly like your first.
- You decide ... Why pay more for the same high-quality instruments?
